DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/16/09 has been entered.

Response to Arguments

Applicant's arguments, see sheets 9-10, filed 12/16/09, with respect to the amended claims have been fully considered and are persuasive. The rejections of the amended claims have been withdrawn.

Allowable Subject Matter

Claims 11-12, 15-16 and 18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest, in combination with the limitations of the base claim and any intervening claims, primarily, wherein the bridge inverter is designed for adapting a dead time for the switching elements as a function of the mean value of the current detected flowing over the primary winding of the transformer by selecting the dead time from a table with correspondingly stored data for the most varying mean values, the dead time representing a time of the switching elements for switching over from one switching element to a further switching element connected in series of the bridge

inverter, thereby ensuring that parasitic capacitances stored in the switching elements of the bridge inverter can be completely recharged and no excessively long switching pauses can occur at the same time.

The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render the aforementioned indicated claim and any dependent claims thereof patentable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
